A CANON COMPANY

Designed For Pure Performance

Océ PlotWave 450/550

Easy, productive large format print, copy & scan system for the office

Designed for pure performance, the new Océ PlotWave 450/550 printing systems build on our proven technology to offer best levels of security, reliability and cost-effectiveness. Ideal for workgroups who want a dependable and productive system to handle large amounts of wide format documents – quickly and smoothly. The one to rely on to print faster, share faster and finish projects faster, while fully safeguarding your confidential information.

Wide format printer with instant-on productivity and flexible printing options.

The Océ PlotWave 450/550 gives you the power you need to print faster, share faster and finish projects faster.

Many of today's most famous architectural, engineering, and construction marvels across the globe have been built using Océ technical document systems. Professionals in a variety of technical industries can react faster and work more efficiently thanks to our productive, innovative and easy to use printing systems, making the Océ PlotWave 450/550 a true labour saving investment.

Take control of document costs and project workflows with the instant productivity of the monochrome Océ Plotwave 450/550 printer, copier and colour scanner. Printing and collating documents inefficiently or externally can be costly and eat up the valuable time of knowledge workers.

With this wide format workhorse in your office, you can print up to 10 A1-size prints per minute, with virtually no warmup delay. That's up to 600 sheets per hour, giving you the power to print, share and finish projects faster.

The Océ ClearConnect user interface works just like a smartphone or tablet. That means your staff will intuitively know how to use it when they see it for the first time. And true to its name, Océ ClearConnect makes the right connections to get the job done.

Print on the way to your next meeting or from a job site – to keep work moving even when you can't get to the printer.

Wide format printer with instant-on productivity and flexible printing options.

Print fast and furious with the compact office workhorse

The Océ PlotWave 450/550 combines state-of-the-art wide format print, copy and scan technology with unparalleled ease of use, productivity and environmental sustainability.

Get a compact workhorse for the office

This productive workhorse is built for fast production – producing up to 10 A1 pages per minute and up to 4 rolls of media. That's up to 600 sheets per hour! It starts printing from silent mode in less than 17 seconds thanks to Océ Radiant Fusing technology, compared to a slow start-up of 4 minutes for some conventional printers. Whilst printing there is no need to hang around to be able to scan, you can print and scan at the same time.

Enjoy workflow without the work

Being able to send files to your printer from anywhere can give you a big advantage when time is tight and deadlines are looming. The Océ ClearConnect software suite gives you more flexible ways to submit files to the printer. Print from your desktop via Océ Publisher Select to manage complex document sets. Print from your smartphone when you are rushing to a meeting, or print from the cloud.

Take some of the stress out of your work day by knowing you can print when you need to.

There is no need to train your workers on a complicated system thanks to the Océ ClearConnect user panel. It works like a smartphone or tablet so there is a zero learning curve. The simple layout, smart kick-starts and detailed preview functions help users get their prints faster, without errors, even when they are stored in the cloud or have just arrived in an email on their mobile phone. Everything from media roll placement and toner loading to print job management has been carefully designed to be ergonomically correct and intuitive.

Benefit from a robust system

The Océ PlotWave 450/550 is based on proven Océ technology found in thousands of systems worldwide. Constructed of durable, hard-wearing parts and supported by our Remote Service, you get dependable uptime with fewer jams, shorter downtime and fewer service calls. It is also surprisingly easy to operate.

Choose eco friendly

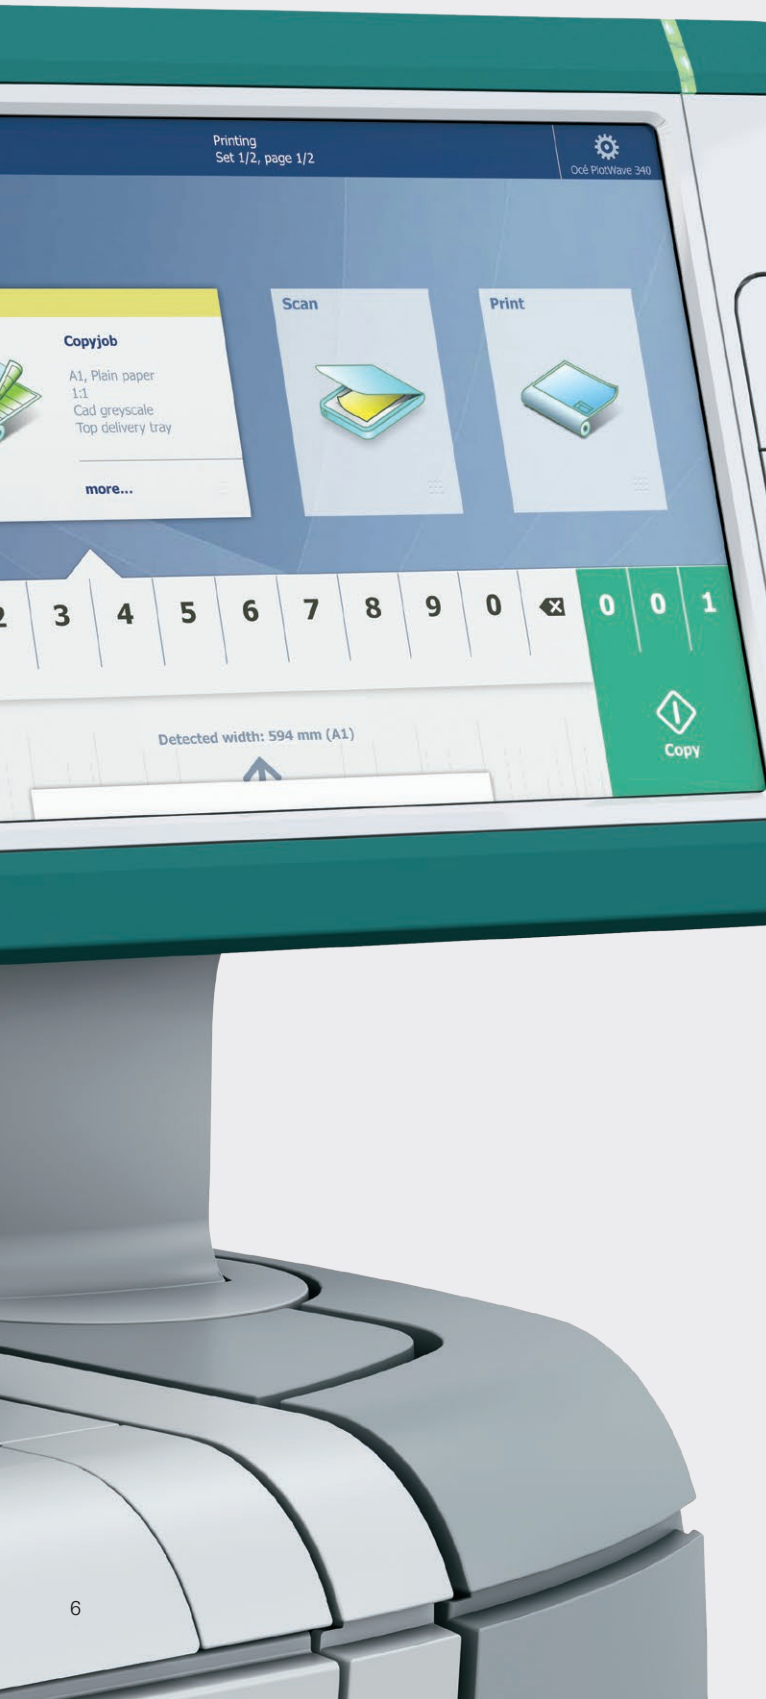

Designed to work side-by-side with people, the Océ PlotWave 450/550 is a people-friendly and planet-friendly choice. It produces very low ozone emissions, very low levels of noise and low levels of heat. In fact this system is totally silent in idle mode and generates a sound level of only 52 db(A) when working, equivalent to the sound of a gentle rain shower. You can place this system anywhere, knowing your people can work comfortably nearby.

The Océ PlotWave 450/550 provides the lowest energy usage in its class. Thanks to Océ Radiant Fusing technology, that cuts your energy consumption significantly.

A workflow that is familiar from the first time you use it

Océ ClearConnect interface provides a workflow for different environments: walk up, central or mixed usage. Whether users are printing with the driver, tablet, smartphone, submission tool or via the user panel, the user experience is always the same, providing first time right results.

Océ
ImageLogic

Océ Radiant
Fusing

Océ
ClearConnect

Thanks to the patented Océ Colour Image Logic[®], scans and copies are enhanced automatically. For instance, wrinkles and light colors are compensated, resulting in better copies than the original. The document width is detected automatically ensuring first-time high quality results and ease of use.

Fast and easy with Océ ClearConnect panel

Works like a tablet. Easily control the printer with your fingertips using the simple screen movements you are used to. Swipe, spread and zoom in on details of a drawing. Check that documents are correctly positioned using the live preview to avoid errors.

Effortless roll changing

Save time and effort. Place the roll on the built-in roll loading station, and paper is fed into the printer, cut and sized – completely automatically.

Reliable quality and performance

Take advantage of a superb print quality with high resolution Pico Printing at 600 x 1200 dpi. Océ Image Logic automatically detects the width of images to ensure first time right results. Enjoy a long productive system lifetime thanks to robust and durable construction.

Get better copy and colour scanning results

Océ Colour Image Logic automatically compensates for wrinkles and light colors to produce superior results. Paper width is automatically detected when the original is inserted. Virtually unlimited scan templates standardise often used scan jobs within 1 touch.

Eco friendly system

This system has very low ozone emissions, very low levels of heat and an unnoticeable sound level of only 24 dB.

It runs comfortably placed anywhere in an office environment. The toner system is completely enclosed and easily accessible.

Optimal productivity & efficiency

Get instant start-up and use half the energy of comparable systems thanks to Océ Radiant Fusing. With a remarkable print speed up to 10 A1-size prints per minute. Increase your productivity even more with the 4 roll option for unattended printing. You can even scan while printing.

Flexible workflow

This system is designed to make it easier to prepare, produce and manage complex technical documents and sets of drawings. Advanced tools make it easy to get documents where you need them, when you need them.

Optional Extras

Océ PlotWave 450/500 with online fullfold folder.

Fully integrated with the printer, the online fullfold folder saves you time by automatically turning out neatly folded documents.

Océ - A Canon Company

Océ is a global leader in digital imaging, industrial printing and collaborative business services. Océ accelerates new digital print technologies and transforms them into local printing products and services, from creative studios and print shops around the corner to blue-chip multinationals around the globe.

Printing Future

Océ are innovators, creating exceptional technologies, products and services in printing and workflow management. We are focused on accelerating digital imaging technologies and developing high-tech printing products and services.

Number one in printing

Océ is one of the main innovation centres for Canon. We collaborate closely with Canon to develop integral business concepts with a strong foundation in technology. One of Canon's goals is to be the #1 in printing. This gives Océ the strategic imperative and incentive to constantly look for opportunities to improve our organisation, business, culture and brand.

Australia & New Zealand

With over 60 years in Australia, Océ has a long history of providing sales, support and service to printers globally and throughout the Oceania Region.

Océ customers benefit in working with a full-service partner they can count on to help their businesses grow. Océ solutions are specifically designed to enhance the revenue and profit opportunities for service providers by combining hardware with workflow software and the expertise to help companies expand into new markets.

Product

Océ developed systems are designed, manufactured and maintained directly by Océ. We are passionate about our exceptional technology that shapes the way people communicate and work. Océ offers a total solution including hardware, software, imaging supplies, finishing systems, applications expertise, hardware support and financing.

Partnership

At Océ we partner with our customers. Our ambition is to enable our customers and support them through their journey. With a portfolio of leading technology, we are creating products and applications the world has never seen before and we are proud to present this to our clients to grow their business.

Support

Quick telephone access to a trained Océ specialist provides immediate support. If a technician visit is needed, it can be scheduled and any necessary spares ordered for a first-time fix.

Service

Océ invest heavily in the training, processes and tooling required to ensure the Océ service team's knowledge and skills are maintained at a premium level. With one of the largest and most experienced service and support teams in the digital print market, we are ready to provide you with the reliable service you need.
