Media Guide for Social
Distancing Applications using
CrystalPoint Technology

Canon

PRINTMEDIA WITH STOPPING POWER

Living in a 'social distancing' society requires us all to adapt. To support citizens, customers and employees in achieving this, every organisation is faced with the urgent task of fixing signage in public and work spaces.

Canon Production Printing Australia's wide range of media supports the various possibilities for enabling safer spaces. Through this media guide we aim to inspire you in the design of spaces and routings, according to these new standards, using your Canon ColorWave device.

Categorised by application, you will find our most popular media, tested and profiled for use with our CrystalPoint Technology. These substrates can be ordered directly from the Canon Imaging Supplies team.

Our full range of media can be viewed online via the Canon Imaging Supplies Media Guide, where you can search for media by printer type, brand or application and download print profiles and technical information, too.

If you need some guidance when choosing the right media for your application, on your ColorWave device, our team is ready help.

Working together on a new reality. Stronger together!

CANON IMAGING SUPPLIES MEDIA

1

Floor graphics

A plain self-adhesive vinyl printed on the ColorWave, in combination with an anti-slip floor laminate, will create eye-catching floor graphics, suitable for indoor use on multiple surfaces.

2

Wall graphics

A selection of materials that can be used for signage on walls, doors and screens. These types of substrates are suitable for short-to medium-term use and can be easily removed. Various qualities also offer ease of application. You can also use a laminate to offer a layer of extra protection.

3

Window graphics

Our self-adhesive materials for applying signs to windows can be used for a variety of applications. Various qualities offer ease of application, or add a laminate for extra durability or external use.

4

Posters and hanging cards

We offer a selection of media ideally suited for the production of impactful posters and hanging cards when printed on your ColorWave.

5

Roll-ups and separators

Roll-ups are a very flexible and effective solution for communicating directional signage and important messages. Our media range also includes material that can be used for separation screens.
